

CIRCULAR (CAROUSEL) CUTTING MACHINE

An advanced version of the popular ASE carousel cutting machine.

Used for slicing of foam blocks into sheets of various thickness, with conveyerized loading & unloading of foam blocks.

- Heavy duty carousel cutting machine
- Having conveyors on the table for automatic loading and unloading of foam blocks without human intervention
- Verstalite machine - can cut most grades of foam
- Ball screw mechanism for high accuracy and safety
- Recipe cutting system
- In built user manual
- Safety fence around the table
