

FOAM BLOCK PEELING MACHINE

FOR FLEXIBLE PU FOAM

MODEL : SBPM

The Single Block Peeling Machine is designed to convert a round foam block into a roll of foam sheet.

Thickness in the range of 3 to 12 mm can be easily cut on this machine.

The cutting thickness is digitally set on the Touch Screen Display.

The machine comes with a heavy duty Cast Iron knife guide.

The feeding movement of the block is on Ball Screws which are driven by a servo motor for higher accuracy.

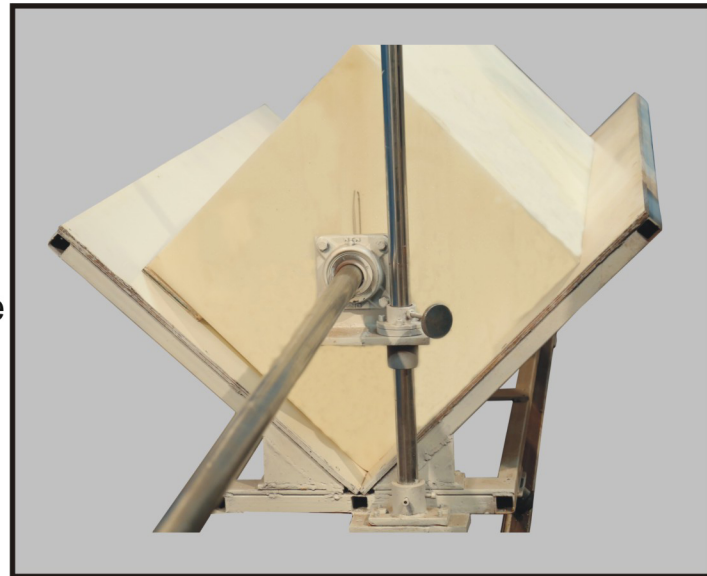

Standard Equipment

- Horizontal block boring machine.
- Stationary cutting head with two balanced blade wheels, heavy duty knife guide and cutting blade.
- Motorized blade sharpening
- PLC Control panel with large touch screen for easy operation.
- Block movement mechanism on highly accurate ball screws.
- Sheet winding attachment at the back of the cutting head.

Power Required : 8.5 KW

Space Required : 5m x 5m

Power Supply : 415V AC 50 Hz
