

SIDE TRIMMING MACHINE

FOR FLEXIBLE PU FOAM

STANDARD EQUIPMENT

- Motorized in-out adjustable vertical cutters.
- Motorized in-out adjustment of grippers on either side.
- Belt conveyor with Variable frequency drive.
- Motorized sharpening of blades with dust collectors.
- Control panel with push buttons and indication meters.

KEY FEATURES

- Digital indication of distance of blades from the centre.
- Digital indication of the position of the grippers.
- Forward Reverse movement of the Belt conveyor.
- Motorized up-down movement of knife guides.
- Selection between Individual or Synchronized movement of In-Out function of the cutters as well as grippers.
- Emergency stop push button for safety.

The Side trimming machine from ASE is designed for trimming the sides of single or long blocks in an efficient way minimizing the work time and also providing digital control over the thickness of sides to be removed.

The machine consists of two vertical cutters in a Left-Right arrangement which can be moved in-out with respect to one another, Grippers to guide the foam block during cutting and a Belt conveyor to drive the foam block.
